Bishop Challoner School

REMOTE AND BLENDED LEARNING POLICY

Remote and Blended Learning

Following the COVID-19 outbreak, Bishop Challoner moved to Remote Learning for the majority of pupils when the school was instructed to close. Remote Learning, also known as Blended Learning, will continue to be part of the curriculum to provide a means of support for individual pupils in specific circumstances.

The school is committed to ensuring that online safety standards are maintained in the delivery of Remote/blended Learning. Alongside the provisions in the Safeguarding and Child Protection Policy and Online Safety Policy, the Social Media Policy, Staff Code of Conduct and Acceptable Use Agreements for staff and pupils, the guidelines below must be followed.

Providing a safe system

For the purposes of Remote Learning, the primary platforms used are:

- Microsoft Teams
- Microsoft SharePoint

The school has central oversight of and can monitor activity and communications through these platforms. The platforms are restricted to Bishop Challoner users only and permissioned accordingly. Other platforms may be used at times for specific purposes. The online safety implications of any platform are carefully considered before use.

Some live online sessions are recorded for safeguarding purposes (as set out below). When a recording is made, access is restricted to participants and the IT Department. Access may be granted to others in the event of a complaint, formal investigation, or legal request. Further distribution is strictly prohibited. Recordings will be deleted after 12 months.

Formats for home learning

Pupils from Year 5 upwards have been issued with iPads. Pupils from Year 4 and below are expected to access home learning with support of their parents, on a family owned device. In the event that this is not possible, the school will endeavour to support the family to find a practical solution.

There is a wide range of formats for guided home learning, including:

- Posting activities for pupils at regular intervals, with pupils posting responses
- Providing recorded material in the form of podcasts or video tutorials
- Directing pupils to web-based resources and activities they can engage with on or offline.

For interactive/live teaching in real time, teachers will select the most appropriate format depending on a number of factors, including the age of the pupils, size of the group, nature of the activity, and the degree of support required. Teachers will also take into account the need to provide a variety of learning experiences within a lesson, across the school day/week and through a scheme of work.

Live online teaching

Live online teaching is an important part of remote learning for pupils of all ages. Interaction with a teacher is an important part of the learning process, and whilst online contact cannot replicate face to face contact, live sessions are particularly helpful as they allow clearer communication, with pupils able to respond to staff questions – and vice versa. Live contact is also an important part of pastoral support and gives pupils the opportunity to interact with peers and maintain important social connections. However, it should be remembered that live online teaching remains just one of a variety of tools and, for the reasons set out above, it should be balanced alongside learning opportunities in a range of other formats. In order to safeguard both pupils and staff, live online sessions must be conducted following the protocols set out below.

For staff:

- Only use school approved platforms; do not use social media in communicating with pupils
- Keep a record/log of live online lessons – date and time, attendance, what was covered, any incidents. Any serious incidents should be reported in the usual manner depending on the nature of the issue
- Maintain professional conduct during live streaming – dress appropriately, consider your surroundings (background, other household members who may come into view etc.) and blur if necessary, remembering that your microphone may be on
- Maintain the same boundaries and insist on the same standard of behaviour as in a school setting. Make specific protocols clear at the outset, e.g. muting of microphones at appropriate times, use of the chat function, cameras off
- If using break out rooms, ensure cameras are turned off and remind pupils of the behavioural expectations. Be particularly mindful when sharing screens that any tabs may be on view for pupils such as Ebay/Shopping sites or personal sites
- The Heads of Sections must be advised in advance of any 1:1 sessions. All 1:1 teaching sessions must be recorded on Microsoft Teams. Support and pastoral 1:1 sessions should be recorded on Teams unless the professional judgement of the member of staff is that this would be inappropriate, or the pupil is unhappy about a recording being made, in which case it is acceptable for detailed notes to be kept instead. Distribution of the recording beyond participants who have automatic access is strictly prohibited.

For pupils:

- Always log on through your Bishop Challoner account and use your school email. Do not share your log on details or passwords
- All meetings on Teams must be initiated by a member of staff. Pupils are not permitted to start meetings or to use this facility to communicate with their peers outside of scheduled lessons
- Do not make recordings, take screenshots/screengrabs or photographs, or store or distribute footage of teachers or other pupils
- Be aware that some live online sessions may be recorded by the teacher
- Dress appropriately for online lessons
- Ensure that you have a safe and appropriate place to participate from. Blur your background if necessary
- Follow the school rules for conduct during online lessons as if you were in school
- Do not undermine in any way the technology used to offer video lessons
- If you have concerns about online safety, or if you feel you are being bullied, talk to someone you trust such as your Form Tutor or Head of Section.

There are also external reporting routes you can use:

- Childline – for support of CEOP – to make a report about online abuse
- UK Safer Internet Centre – to report and remove harmful online content

The role of parents:

- It is the responsibility of parents to ensure that pupils are monitored in their use of technology for Remote Learning as they would ordinarily do when their children are using technology at home
- While pupils are working from home they are connected to their home broadband so their traffic doesn't go through the school's firewall. Parents will therefore need to ensure that age-appropriate filtering or safe search is enabled at home. To set this up, information can be found at:
<https://www.internetmatters.org/parental-controls>
- Parents with queries about Remote Learning should contact their child's class teacher. Concerns related to safeguarding, child protection or online safety should be referred to the DSL
- Incidents can also be reported to CEOP <https://www.thinkuknow.co.uk/parents/Get-help/Reporting-an-incident/> or Report Harmful Content <https://reportharmfulcontent.com/>
